EVENT MARKETING

Getting people to sense, feel, think, act and relate to your company, brand or occasion

On a daily basis we are bombarded with countless marketing messages with all but the most effective being filtered out. Events as a marketing medium enable brands and companies to break through this barrier in a dynamic, targeted and measurable way. Moderno provide such events that connect and influence the way a target group senses, feels and relates to your company or brand values.

Awareness, Anticipation, Excitement

Like many an occasion, much of the enjoyment derives from the anticipation and excitement that's developed prior to the event.

From electronic invites and temporary websites to stylish, personally written letters; from strategically placed posters to mysterious and theatrical telephone calls; Moderno can provide innovative and creative means to create just the right amount of awareness, anticipation and excitement.

EVENT MARKETING

Branding and Communications - Artwork, Design, Copy

The success of any event is down to a combination of elements, be it the food, the venue, theme, etc. A key element too is that of communications.

From invites to websites, uniforms to press packs, menus to poster boards, brochures to corporate literature, Moderno can provide a complete range of design and print services that include copy writing, artwork and photography.

Evaluation, Measurement and ROI

Was the event a success? Did it achieve its planned objectives? What exactly was the return achieved from the money invested?

Today business spend has to be measurable and justified, this includes spend on corporate hospitality and event marketing. Through the use of various measurement models, Moderno can provide an objective evaluation and feedback service that enables you to have a summary report as to whether the event fulfilled the rationale, giving you true spend accountability.
